

REDEFINING YOUTH EMPLOYABILITY - NAVIGATING FUTURES

Project No: 2023-3-EL02-KA154-YOU-000184073

RiseUp Mobility in Thessaloniki: Empowering Youth Through Innovation!

From May 19–24, 2025, Thessaloniki hosted an inspiring 6-day RiseUp mobility event, bringing together 60 young participants, including 14 with fewer opportunities, from across Europe. This dynamic initiative was a key milestone of the RiseUp Project, designed to empower young people to develop creative, practical solutions to employment challenges in the EU.

Throughout the week, participants engaged in:

- ✓ Interactive workshops focused on employability and innovation
- ✓ Mentorship sessions with policymakers and industry experts
- ✓ Collaborative discussions exploring the future of youth employment
- ✓ A contest format, where teams developed and presented innovative ideas aimed at influencing future employment policies

The mobility created a vibrant space for collaboration, creativity, and empowerment, allowing participants to share experiences, strengthen their skills, and network with professionals across sectors.

By the end of the event, young people not only enhanced their employability skills but also became active contributors to shaping inclusive and forward-thinking employment opportunities across Europe.

The RiseUp Thessaloniki mobility truly embodied the project's mission: bridging youth empowerment, policy innovation, and employability for a stronger, more inclusive future.
